

# BEWARE TAKE CARE!

Dear Parents and Carers,

Please can we ask all parents and carers who collect children to make sure that they hold their children's hands as they leave Nursery?

Once the children have signed out they are the responsibility of parents and carers.

We are worried that children might wander off or run out of school and onto the roads if they are not holding an adult's hand when they leave their classroom.

We do have a member of staff at the door but it's very difficult to see which child is with an adult and which is not UNLESS they are holding an adult's hand.

Thank you for your support in helping to keep all of the children safe inside Nursery and on the way home.
